Dear Linda,

It is with great pleasure that I write this letter in support of *The Fluidity of Gender: Sculpture by Linda Stein*.

Both *The Fluidity of Gender* exhibition and your presentation were well received by Georgia College students, faculty and staff. The students fully embraced not only the interactive nature of the exhibition, which called upon them to participate in the exhibition by wearing the work and engaging with each other while wearing the work, spinning the work that rest upon the lazy-susans, reading the customized comic strips or discussing the many different components that comprised the forms. Additionally, they really connected to the works's content as well.

I hope you will enjoy directing folks to our website at www.gcsu.edu/library/museum or to my blog so aptly named Georgia College Curator found at www.georgiacollegecurator.blogspot.com where the work as well as the students experience with it was recorded.

Thanks for all you do to inspire, engage and delight our future leaders.

Sincerely yours,

Shannon Morris
